

Passargad was founded in 1993 by Architect Shahriar Dehghan and has maintained a reputation of high quality in design.

The firm believes that architecture which involves space is a means of organization of the way of life to an environment appropriate for purpose of the actual use. Passargad specializes in Architecture, Interiors & Landscape Designing.

Passargad's working method is based on a detailed analysis of the client's needs and the project's program. The concept ideas are kept from the beginning to end as a conducting thread for the design process in order to achieve the best results.

**"Architecture** is the Learned Game, Correct and Magnificent, of forms assembled in the **Light."**

#### **DESIGN PHILOSOPHY**

*" The quality of the future environment rests upon the creative imagination and intellectual rigor of the skilled and sensitive design".*

**Passargad**  
Design Services

## RESIDENTIAL PROJECTS
